

Greenwood Presented Commitment to Safety Award for 2017

Monti's fully implemented 6S LEAN system and commitment to a drug-free workplace were instrumental in being selected for the award. The award was presented by FFVA Mutual, Monti Inc.'s workers' compensation insurance agency.

George Sepelak and Nate Duhl shown greeting customers at booth 3327. They were promoting Busbar Fabrication, Copper Brazing, Fluidize Bed Epoxy, CNC Machining & Turning on Copper, Aluminum, Steel and Stainless, Hand Transfer & Progressive Die Stamping,

From Monti Inc. Sales Engineer Tom Mueller: "Here is a nice quote from a GPO-3 Parts customer."

Hello, Tom –

Don't know about you but I've been having a tough week so when my customer for these parts called I took a deep breath.

Turns out he called to tell me how great the parts looked and how impressed he was with the consistency and workmanship. That doesn't

Why is G10 material good for electrical insulation?

It's tough as nails and will last a lot longer! G-10 is the toughest glass-fiber resin laminate and therefore the most commonly used. It is sometimes known as Garolite or Glastic insulator. It is difficult to machine or cut and requires special equipment developed at Monti Inc.
